# FULL FOCUS ON LEARNING!

Combining vibrant 3LCD colour performance with award-winning super silent technology, NEC's next generation laser projection ensures all attention is on the teaching content in classrooms, lecture halls and auditoria. Unique to NEC, filter-free LCD laser technology means there's no need to change filters nor replace bulbs for an impressively low total cost of ownership and zero maintenance.

Choose the most appropriate projector range to suit your needs and budget.

## P Series Laser Projectors

- > Virtually silent in operation means no noise disturbance
- > Low maintenance filter-free design with sealed optical LCD engine
- > 20,000 hours hassle-free operation with laser light source
- > Up to 6,000 ANSI lumens in WUXGA resolution
- > Future-proof input management with 4K@30 Hz input processing
- > Advanced connectivity with HDBaseT, 2 x HDMI, optional WLAN and versatile projection characteristics
